EN Capi Europe manufactures unique designer flowerpots for indoor and outdoor use. With our different styles and textures, there is a suitable flowerpot for everyone. Part of our production takes place at our own factory in Tilburg. In addition to the modern design, Capi flowerpots are also high quality. They are lightweight, despite the robust exterior, and weather-resistant. Flowerpots suitable for every garden, interior, terrace and balcony, for any plant and any style. All the flowerpots have their own design and are available in various colours and models.

NL Capi Europe maakt bijzondere design bloempotten voor binnen en buiten. Met onze verschillende stijlen en texturen is er voor iedereen een passende bloempot. Een deel van onze productie vindt plaats in onze eigen fabriek in Tilburg. Naast het eigentijdse design hebben Capi bloempotten een hoge kwaliteit. Ze zijn licht van gewicht - ondanks het robuuste exterieur - en ze zijn weersbestendig. Bloempotten voor in iedere tuin, ieder interieur, terras of balkon. Voor elke plant en elke stijl. Alle bloempotten hebben een eigen design en zijn beschikbaar in vele kleuren en modellen.

DE Capi Europe stellt besondere Designblumentöpfen für drinnen und draußen her. Dank unserer verschiedenen

Stilrichtungen und Texturen findet jeder einen passenden Blumentopf. Ein Teil unserer Produktion findet in unserer eigenen Fabrik in Tilburg statt. Capi-Blumentöpfe überzeugen nicht nur durch modernes Design, sondern auch durch ihre hohe Qualität. Trotz ihrer robusten Außenseite sind sie besonders leicht und wetterbeständig. Blumentöpfe für jeden Garten, jedes Interieur, jede Terrasse oder jeden Balkon. Für jede Pflanze und jede Stilrichtung. Alle Blumentöpfe haben ein eigenes Design und sind in vielen Farben und Modellen erhältlich.

FR Capi Europe fabrique des pots de fleurs design exceptionnels pour l'intérieur et l'extérieur. Grâce à notre diversité de styles et de textures, nous proposons des pots de fleurs selon les goûts de chacun. Une partie de notre production a lieu dans notre propre usine à Tilburg. En plus du design contemporain, les pots de fleurs Capi sont de qualité supérieure. Ils sont légers - malgré l'extérieur robuste - et ils résistent aux intempéries.

Des pots de fleurs pour chaque jardin, intérieur, terrasse ou balcon. Pour chaque plante et chaque style. Tous les pots de fleurs ont leur design propre et sont disponibles dans un grand nombre de couleurs et de modèles.

Visit our Capi Experience!

Two thousand square metres of inspiration.

Are you ready for the real Capi experience? Come visit us! All sorts of styles that focus on greenery create an inspiring environment. Our flowerpots are not only displayed as inspiration for garden centres but also for end consumers. It is a place where you can see the flowerpots close up, with and without plants, and where all sizes and models are displayed alongside each other. In other words, the complete picture! We are delighted to share this experience with you.

We are very proud

We would like to share this Capi Experience with you. Feel free to come and visit us. You are more than welcome! Please contact your account manager and we hope to see you soon in Tilburg.

At the centre of the Experience, there is a wide, tall tree surrounded by a circular bar with a beer tap. A cool jeep has been brought inside and converted into a fully-equipped kitchen. A large tree trunk table with 40 seats has also been brought inside. The Midi theatre with cinema seats and a large screen gives the area a Tilburg touch. Altogether, this creates a unique experience that focuses on a green lifestyle and is filled with Capi's designer flowerpots.

Let's
meet!

Rent the Capi Experience

Do you like the idea of holding a meeting or throwing a party in the Capi Experience? We do too and that's why you can rent the Capi Experience for your own event.

See you in
the Capi Experience!

Why we love orange

Working on a sustainable future

EN Our new facility is a big step towards the sustainable future Capi is striving for, and the result of the growth Capi has experienced over the past years. This has enabled us to welcome new production robots as well as lots of new colleagues, which has given us the possibility to add the new 'Nature Clay' collection to our range this season (page 21). We are extremely proud of this milestone, but particularly looking forward to what's next!

NL Ons nieuwe pand is een grote stap richting de duurzame toekomst die Capi nastreeft en het resultaat van de groei die Capi de afgelopen jaren heeft doorgemaakt. Hierdoor hebben we nieuwe productierobots kunnen verwelkomen, maar ook veel nieuwe collega's. Dit heeft ervoor gezorgd dat we dit seizoen ook de nieuwe 'Nature Clay' collectie hebben kunnen toevoegen aan ons assortiment (pagina 21). We zijn enorm trots op deze mijlpaal, maar we hebben vooral veel zin in wat komen gaat.

DE Unser neues Gebäude ist ein großer Schritt in Richtung der nachhaltigen Zukunft, die Capi anstrebt, und es ist das Ergebnis des Wachstums, das Capi in den letzten Jahren erreichen konnte. Hierdurch konnten wir neue Produktionsroboter anschaffen und auch viele neue Kollegen begrüßen. Dank dieser Entwicklungen konnten wir in dieser Saison auch die neue Kollektion „Nature Clay“ in unserem Sortiment aufnehmen (Seite 21). Wir sind sehr stolz darauf, dass wir diesen Meilenstein erreicht haben, freuen uns aber vor allem auf das, was vor uns liegt.

FR Notre nouveau bâtiment est un grand pas en direction de l'avenir durable visé par Capi et est le fruit de la croissance de Capi au cours de ces dernières années. Cela nous a permis d'accueillir de nouveaux robots de production, mais aussi de nombreux nouveaux collègues. Cela nous a permis aussi d'ajouter la nouvelle collection « Nature Clay » à notre gamme au cours de cette saison (page 21). Nous sommes très fiers de cette étape, mais nous envisageons avec plus d'enthousiasme encore les étapes futures.

Our unique insulating layer

The Made in Holland planters are made of a mix of polyethylene and wood fibres. It all starts with a powdered substance, which melts due to a heating process and then hardens as two separate layers in the planter. Having a double layer in the planter makes it extra strong. The result is a bright orange heart in the planter: the insulating layer.

Synthetic material of the planter resembles natural stone, but has an unexpected benefit: it's lightweight.

Makes a stronger planter.

Plants will live longer because the orange insulating layer protects the roots of the plant from heat in the summer and frost in the winter.

The surface is sturdy because of the wood fibres.

Behind the **orange** scenes

From powder to planter

1 The production process

Capi Europe has developed its own rotation moulding method for the production of Made in Holland pots. We are unique throughout the world in using this particular rotation moulding technique. The process uses less than half the energy of traditional rotation moulding. The two layers of the pot (outer layer and insulating layer) are made in a single cycle.

- Unique rotation moulding.
- This year, another six robots were added.

2 Spinning around

Made in Holland flowerpots are made from a mixture of plastic and wood fibres. These raw materials are poured into the mould using a filling system. This is heated to melt and liquefy the mixture. The robots spin around so that everything is distributed throughout the mould. The substance is then cooled to produce the flowerpot.

- Each model, texture and size of pot has its own mould.
- The Capi robots work 24/7.

3 Finishing touch

Once the flower pots are removed from the machines, they proceed to quality control via a conveyor belt. This inspection is carried out by our product specialists. Afterwards, each pot is provided with a Capi label, information sticker and a barcode. The flowerpots are then wrapped, placed on a pallet and made ready for shipment!

- The pots are roughened to give them a natural look.
- Useful information is included on the bottom of the pot.

Rain barrel Rib NL

Large (56 x 123) ■ RKBLR 1132 ■ RKGRR 1132 ■ RKOFZ 1132

The climate is changing and the weather is becoming more extreme: there are more days with heavy and prolonged rainfall. The risk of flooding and water damage is increasing because the sewer system cannot handle the high amounts of rainwater.

At the same time, there are more periods of sustained heat and drought. With all of the associated negative consequences. To help maintain a water-friendly garden, Capi has developed this rain barrel.

Reuse rainwater

Rainwater is soft and that's good for your plants. You also save on tap water. And that's good for everyone.

Embrace
the green
lifestyle

Filling tip

Make sure to drill a drainage hole for outdoor use!

gefüllt werden. Die oberste Schicht kann zur Dekoration beispielsweise mit Hydrogranulat oder Holzspänen bedeckt werden. Damit sorgen Sie außerdem dafür, dass die oberste Schicht nicht so schnell austrocknet.

Stellen Sie den Blumentopf schon an seinen Platz, bevor sie ihn füllen, damit Sie ihn nach dem Befüllen nicht mehr umstellen müssen. Wenn Ihnen der Blumentopf ein Stück weiter weg doch besser gefällt, heben Sie ihn dann im Ganzen hoch und nicht an den Rändern. Durch das Gewicht können Risse im Blumentopf entstehen.

FR Vous souhaitez utiliser le pot de fleurs à l'intérieur ? Dans ce cas, vous devez veiller à ce qu'il n'y ait pas de trou d'évacuation au fond du pot de fleurs. Si le pot de fleurs a un trou d'évacuation, vous devez utiliser un cache-pot. Vous souhaitez utiliser le pot de fleurs à l'extérieur ? Dans ce cas, vous devez veiller à ce que le pot de fleurs ait un trou d'évacuation. Si le pot de fleurs n'a pas de trou d'évacuation, vous pouvez en percer un d'environ 25 millimètres.

Couvrez le trou d'évacuation avant le remplissage, avec un voile par exemple, de sorte que le trou ne puisse pas être bouché, mais que l'eau puisse s'écouler.

Remplissez ensuite le pot de billes d'argile à hauteur d'un tiers environ. Les billes d'argile assurent une meilleure gestion de l'humidité dans le pot, ce qui permet à la plante de mieux pousser. Le reste du pot peut être rempli de terreau. Pour la décoration, le dessus du pot peut par exemple être recouvert de billes d'argile ou de copeaux de bois. Cela empêche par ailleurs la couche supérieure de sécher trop rapidement.

Placez votre pot de fleurs au bon endroit avant de le remplir, afin de ne pas avoir à le déplacer après le remplissage. Si vous voulez tout de même déplacer votre pot de fleurs, saisissez l'ensemble du pot de fleurs et non les bords. Le pot de fleurs peut se fissurer par le poids.

Why do planters have a drainage hole?

This drainage hole allows the soil to breathe, which ensures the healthy roots. This eventually makes the planter frost-resistant. The water can drain from the planter preventing the soil from freezing, expanding and bursting out of the planter. Be sure to put the planter on raised pot feet to ensure the planter has sufficient drainage.

EN Every garden needs accessories to spruce up the terrace or balcony. That's why Capi Europe offers a range of outdoor accessories that seamlessly match our various flowerpot collections. For example, Capi's range includes a nice spherical oil lamp in different sizes for outdoor use, as well as sturdy, black bowls to elegantly decorate your garden table.

NL Verleng de levensduur van onze producten met de beste onderhoudsproducten. Weersinvloeden over een lange periode of kleine beschadigingen kunnen het product enigszins aantasten. Met de onderhoudsmiddelen van Capi Care verdwijnen lichte beschadigingen en komen de originele kleur en diepe glans weer helemaal terug.

DE Jeder Garten kann Accessoires gebrauchen, um die Terrasse oder den Balkon zu verschönern. Darum bietet Ihnen Capi Europe verschiedene Outdoor-Accessoires, die nahtlos an die verschiedenen Blumentopfkollektionen anknüpfen. Unter anderem führt Capi eine hübsche, kugelförmige Öllampe in verschiedenen Größen für die Verwendung im Freien oder eine rustikale, schwarze Schale als elegante Dekoration für den Gartentisch.

FR Chaque jardin a besoin d'accessoires pour décorer la terrasse ou le balcon. Capi Europe propose un certain nombre d'accessoires pour l'extérieur, qui correspondent parfaitement aux différentes collections de pots de fleurs. Capi présente par exemple une lampe à huile ludique en boule de différentes tailles mais également un plat noir robuste pour décorer votre jardin.

Warranty & service

EN Every Capi product comes with a warranty. The flowerpots produced in the Netherlands come with a 10-year warranty on manufacturing defects*. The rest of our collection comes with a 3-year warranty on manufacturing defects*.

Should anything happen to your Capi pot when it is in use, please do not hesitate to contact one of our service manager. They will be happy to help! Send an e-mail to: service@capi-europe.com or call +31 (0)13 511 50 50 (workdays 08:00 to 17:00). Of course, you can also contact our service manager for any questions you have about your Capi product.

* Read more about our warranty conditions at
capi-europe.com/en/guarantee.

NL Op elke product van Capi zit garantie. De bloempotten van Nederlandse productie hebben een garantie van 10 jaar op productiefouten*. Op de rest van onze collectie geven wij 3 jaargarantie op productiefouten*.

Mocht er tijdens de serviceperiode iets gebeuren met jouw Capi pot, neem dan gerust contact op met onze servicemanagers. Zij helpen je graag verder! Stuur een mail naar: service@capi-europe.com of bel naar +(0)13 511 50 50 (werkdagen van 8 tot 17 uur). Uiteraard kun je ook bij onze servicemanager terecht voor vragen over jouw Capi product.

* Lees meer over onze garantievoorwaarden op
capi-europe.com/garantie.

DE Capri gewährt Garantie auf alle Produkte. Auf die Blumentöpfe aus niederländischer Herstellung gewähren wir

10 Jahre Garantie auf Produktionsfehler*. Beim Rest unserer Kollektion erhalten unsere Kunden 3 Jahre Garantie auf Produktionsfehler*.

Wenn Sie innerhalb des Garantiezeitraums Mängel an Ihrem Topf feststellen, nehmen Sie einfach Kontakt mit einem unserer Servicemanager auf. Sie helfen Ihnen gern weiter! Schicken Sie eine E-Mail an: service@capi-europe.com oder rufen Sie uns unter der Nummer +(0)13 511 50 50 an (werktag von 8 bis 17 Uhr). Selbstverständlich können Sie sich auch mit Fragen zu Ihrem Capi-Produkt an unsere Servicemanager wenden.

* Nähere Informationen zu unseren Garantiebedingungen finden Sie unter capi-europe.com/de/garantie.

FR Chaque produit Capi est garanti. Les pots de fleurs de production néerlandaise sont garantis 10 ans contre les défauts de production*. Nous accordons une garantie de 3 ans pour des défauts de production* sur le reste de notre collection.

S'il arrive quelque chose à votre pot Capi au cours de la période de garantie, n'hésitez pas à contacter nos managers client. Ils se feront un plaisir de vous aider. Envoyez un e-mail à : service@capi-europe.com ou appelez le +(0)13 511 50 50 (les jours ouvrés entre 8 et 17 heures). Vous pouvez bien sûr aussi contacter nos managers client si vous avez des questions sur votre produit Capi.

* Pour en savoir plus sur nos conditions de garantie, consultez capi-europe.com/fr/garantie.
